11/28/2022 18:46:25	5	3	4	Would be great if a calculator was included so we could insert, say, 1.25 + 1.25 + 2.75 etc so we don't have to do the math ourselves

11/30/2022 11:19:17	5	4	5	1) Might be good to display how the rest calculation is done on the page. 2) Make text boxes smaller - more readable 3) Consider making it pretty using a UI library like Material :)

11/30/2022 14:32:29	4	2	4	Interesting concept. I think a clear distinction for whether this relaxation time should be taken all at once or in separate chunks would be helpful
